MILL LEVY - NOT AGAIN

The Public School system is asking for more money to fund various projects and acquire new properties. It's time to consolidate spending only on necessary buildings and facilities. **Voters should finally VOTE NO on this mill levy!**

BOND ISSUES - JUST SAY NO!

Have you become dissatisfied with how the government is managing your tax dollars? If so, you may want to reconsider voting for the bond issues on the 2023 ballot this year.

Voting no does not mean you are against police or roads or any other item up for consideration. It simply means you are sending a message that the government needs to be a better steward of your tax dollars.

Property taxes will decrease if any of these bond issues fail!
